Mission Statement

The English College in Prague was established, and continues to exist, to provide an English-medium education for young people in Prague, primarily of Czech origin, which is second to none academically but also develops every individual's potential to the full and prepares them for the practical, social, intellectual and moral challenges that they will face in today's globalised society.

Lord Holme’s Guiding Principles for The English College in Prague

There are at least three principal virtues of the sort of liberal humanistic education which this College offers and which inspired me from the very beginning of the English College.

1. The concept of developing each student’s full human potential. Genetic inheritance confers upon each of us a bundle of talents, aptitudes and responses and the life chances that go with them. It is one of the roles of education to identify and nurture these potentials and to raise them further so that each student realises his or her fullest self.

2. The ideal of a community built on reciprocity. A school is a community in miniature and it should be guided by mutual care and respect with each student “putting back” into the common store of good will and positive actions at least as much as they take out. Dealings between members of the school community should be characterised by care, consideration and courtesy.

3. The importance of international understanding, not just between the UK and the Czech Republic, with ties of language, literature and learning but throughout the larger family of mankind when so many shared problems can only be solved by shared values and shared actions. We are educating responsible and aware citizens of an ever-smaller interdependent world.

Lord Holme was instrumental in the founding of the College and was its first Chairman of Governors. The Library was named after him in October 2010.
Welcome from the Headmaster

November 2019

Dear Parents,

Thank you for thinking about placing your son or daughter at the English College in Prague.

The College was founded in September 1994, after the Velvet Revolution. It was seen as a revival of the Prague English Grammar School, which existed between 1927 and 1954, to give Czech and international students the opportunity of an English-style education taught in English. We are both a school under the jurisdiction of the Czech Ministry of Education and a British independent school in membership of the Headmasters’ and Headmistresses’ Conference (HMC) group of schools in the United Kingdom.

By following our curriculum that leads ultimately to the International Baccalaureate Diploma (IB) at 18 or 19, your child will qualify for admission to universities here in the Czech Republic, in the United Kingdom and elsewhere in the world. The IB Diploma, if taken at the English College, together with the State Maturita in Czech Language and Literature, is also recognised as the equivalent of the full Czech Maturita.

If your son or daughter is successful in obtaining a place at the College, we will help him or her to achieve their full potential. As you can see from our Mission Statement and message from Lord Holme in this Prospectus, we provide an education that will generate not only the academic qualifications needed for higher education, but will also equip your child with the skills and values necessary for success in the workplace and to become a responsible and aware citizen of an interdependent world. Perhaps even more.

Do come and visit us to see what we have to offer – a unique blend of school where predominantly Czech students learn to think independently, gain confidence and fluency in English, but can do so without sacrificing their Czech language, literature and heritage.

I wish your child every success in the entrance exams.

Yours sincerely,

[Signature]

Dr. Nigel Brown
Headmaster
The English College Foundation and the origins of the ECP

The English College Foundation is a UK registered charity, established in 1992 by the ECP’s first Chairman of Governors, the late Lord Holme, and the current Chairman, Ann Lewis who, together with others, led the long and sometimes challenging task of opening the English College in September 1994, with Hubert Ward as its first Headmaster.

The ECP had its origins at a meeting in early 1990 between the then Foreign Office Minister, William Waldegrave, and the late President Havel. After the revolution, the British Government was keen to help the newly democratic Czechoslovakia and it was suggested at this meeting that it would be a good idea to re-establish the old Prague English Grammar School. Havel said that it had been the dream of all Prague school children of his time to be accepted for this institution. PEGS had opened in 1929 with the aim ‘to turn out young people who are inspired with the idea of international solidarity and who, in addition to possessing a thorough knowledge of English and of the life and literature of the English-speaking nations, will remain true at the same time to the ideals of their own nation.’ Although PEGS was closed down by the Nazis and again by the Communists following a brief re-opening after the war, the English College in Prague can trace its aims and ethos to this educational trailblazer. Indeed, one of our Governors, Jan Kovařovic, was himself a student there.

This academic year sees the 25th anniversary of the English College in Prague and the English College Foundation continues to help and support the ECP today. Its members take great pleasure in seeing our graduates make their way in their chosen careers and they continue to support the College with regular donations, raised at an annual garden party generously held by the Czech Ambassador in London, ably assisted by his Deputy, Jan Brunner, who graduated from the ECP in 1999. Recent welcome additions to our facilities - the drama studio and music courtyard - were made possible by donations from the ECF.
**Timeline**

**January**
Visit to the ECP by 
**Michael Žantovský**, 

**February**
Founder Director of the English College 
Foundation and 
Founder Governor, 
**Ann Lewis CMG**, 
becomes Chairman of the ECP Board of Governors.

**2019**
ECP celebrates 25th anniversary of the school’s foundation.

**May**
Visit by HE **Nick Archer** MVO, 
the British Ambassador to the Czech Republic.

**June**
Inaugural Group 4 Science Project, in collaboration with the 1st International School of Ostrava.

**July**
1000th ECP student graduates with the IB Diploma.

**September**
**Simon Marshall** becomes the ECP’s fifth Headmaster.

**2013**

**2012**
May
Visit to the ECP by 
**English Philosopher, Prof A. C. Grayling.**

July
**Cam Nhung Duong** achieves 45 at IB.

**5 September**
Official opening of new Biology laboratories by the Mayor of Prague 9, **Ing. Jan Jarolím.**

**September**
First ECP Havel Scholarship awarded.

**2011**

**July**
**Alexander Malanyuk** (2011) achieves 56 at IB, 
by taking 8 subjects 
and getting 6 and 7 in the extra subjects.

**September**
Introduction of the **Barta Scholarships**.

**18 December**
Death of Founder Patron, **Václav Havel.**
**March**

HRH The Prince of Wales’s second visit to the English College.

**October**

Re-naming of the Library after ECP’s first Chairman of Governors, Lord Holme.

**November**

The unveiling of a plaque on The Lime Tree of Freedom, which was planted on 27 October 1928, the eve of the 10th anniversary of the establishment of an independent Czechoslovakia, to mark the 10th anniversary of the end of WW1.

**May**

The ECP Network was launched at a reception at the British Embassy in Prague, held to celebrate the 20th anniversary of the English College.

**September**

Visit to the ECP by English Philosopher and Founder Director of the English College Foundation, Prof Sir Roger Scruton.

**September**

Dr Nigel Brown becomes the ECP’s sixth Headmaster.

**February**

Inaugural Annual ECP Debate with former Minister of Foreign Affairs and Defence, Alexander Vondra, and Respekt journalist, Silvia Lauder.

**May**

Death of ECP’s first Chairman of Governors, Lord Holme.

**Baroness Rawlings** becomes the new Chairman of Governors.

**Baroness Rawlings** becomes the new Chairman of Governors.

**2008**

**2009**

Mark Waldron becomes the ECP’s fourth Headmaster.

**2014**

The ECP celebrates its Twentieth Anniversary.
Hubert Ward appointed the ECP’s first Headmaster.

The Student Council presented 71,000 Kč to the Kliček Foundation at a televised concert – the second largest donation after the President’s. 40,000 Kč of the total was raised at the Christmas Fair.

Miriam Kürtösiová (2005) achieves 45 at IB.

Monika Žáková (1999) becomes the first ECP student to achieve 45 at IB – one of only 27 worldwide.

The ECP celebrates its Tenth Anniversary.

The English College in Prague Steering Group set up.

HRH The Prince of Wales and President Havel agree to become joint patrons of the English College Foundation.

Meeting between President Havel and British Foreign Minister, William Waldegrave, with British Ambassador, Laurence O’Keeffe, & ECP Founder Governor, Ann Lewis, at which the idea of a successor to the Prague English Grammar School is first suggested.

President Havel’s first official visit to the UK where he is guest of honour at a lunch hosted by the Lord Mayor of London, Sir Brian Jenkins, attended by Founder Governor, Martyn Bond, Head of the European Parliament Office in London.

Peter de Voil becomes the ECP’s third Headmaster.

Hubert Ward is awarded an OBE in the Queen’s Birthday Honours List.

Albert Hudspeth becomes the ECP’s second Headmaster.

First ECP students sit IB examinations.

The ECP celebrates its Tenth Anniversary.
October 2002

30 October 2000
Visit to the ECP by HRH The Prince of Wales and the creation of 22 ECP Prince of Wales Fund Scholarships.

2001
Roof Conversion officially opened by Lord Holme and Karel Kühnl.

September 1994
Student numbers pass 300 for the first time.

January 1993
Founder Governor, Ladislav Venyš, finds the building in Vysočany that was to become The English College in Prague.

October 1993

7 April 1995
Official Opening of the English College by UK Foreign Office Minister, Baroness Chalker of Wallasey, and Czech Education Minister, Ivan Pilip.

4 September 1994
The English College in Prague opens for the first time, with 117 students.

November 1989
Václav Havel becomes President of a free, democratic Czechoslovakia.

1994 - 2019
25TH ANNIVERSARY
THE ENGLISH COLLEGE IN PRAGUE
ANGLICKÉ GYMNAZIUM

September
The English College in Prague opens for the first time, with 117 students.
We are proud and happy that two distinguished people, President Václav Havel and HRH The Prince of Wales, agreed to be Founder Patrons of our school in 1994 when The English College was established. His Royal Highness has visited the school on two occasions, most recently in 2010.

**HRH The Prince of Wales**

“I have watched with a great pleasure and a sense of pride as the College has grown and flourished. I was particularly glad to meet many of the students and staff during my last visit to Prague, and see for myself the friendly and stimulating environment at the College. I especially welcome the broader international vision the College encourages in its students and I am particularly glad to hear that several of them are now studying in the U.K.”

![The Prince of Wales – Patron](image)

**Václav Havel († 18. 12. 2011)**

“I appreciate the English College’s insistence on combining high academic standards with personal achievement in areas such as art and music, sport and debating, and strong sense of community involvement. The students emerge self-confident and articulate, fluent in English and at home on the international scene.”

![Václav Havel – Patron](image)

**Karel Schwarzenberg**

“I treat it as a singular honour to have been invited to succeed our former President Václav Havel as Joint Patron of the English College in Prague, alongside HRH The Prince of Wales. The College is a shining example of Anglo-Czech cooperation for the noblest of purposes: educating coming generations in the values and principles which have sustained our own. From the modest beginnings of the project some twenty years ago, it has developed into one of the leading educational establishments in the capital, attracting not only many gifted young Czech students but also those from a variety of other countries living here in Prague. It is both Czech and international, a combination that brings out the best from both backgrounds.”

![Karel Schwarzenberg – Patron](image)
Members of the Board of Governors

The English College was made possible by a charitable trust in the UK, the English College Foundation. The Foundation raised the money to establish and develop the College. The Foundation entrusts the daily management of the College to the Headmaster and his team but they are overseen by a group of appointees called College Governors. These people are nominated for the service they can provide to the College from their professional backgrounds and positions in the UK and the Czech Republic. They receive no financial reward for their service, which is highly valued by the College and the Foundation. They meet three times a year at the College.

Chairman
Ann Lewis CMG BA
After grammar school and university in Leeds and four years in Finland, Ann joined the Foreign Office. She spent most of her diplomatic career on the Soviet Union and Central and Eastern Europe, serving at Embassies in Moscow (until expelled in 1971 in retaliation for the UK’s expulsion of 105 Russian spies), Helsinki and East Berlin, and on secondment to the Cabinet Office. A long stint in the Eastern European Department (non-Soviet Warsaw Pact countries) straddled the events of 1989 and included the invention and early running of the Know-How Fund. She retired as Head of Cultural Relations at the FCO.

Ann is a Founder Governor of The English College in Prague, an IB school set up in the wake of the Velvet Revolution, becoming Deputy Chairman and then Chairman of Governors in 2017.

Since retirement Ann has edited books on the EU’s relations with Ukraine, Belarus and Moldova, and two books on the history of the English College. She is also a long-standing Trustee of The BEARR Trust, which supports health and welfare NGOs in the former countries of the Soviet Union.

Deputy Chairman (Czech)
Zdeněk Tůma graduated from the University of Economics in Prague, completing his postgraduate studies at the Czechoslovak Academy of Sciences. At the beginning of the 1990s, he participated in the reintroduction of Economics education at Charles University where he was appointed an Associate Professor. He continues to lecture at Charles University, specialising in central banking and financial regulation. He was Chief Economist at Patria Finance and in 1998, moved to the European Bank for Reconstruction and Development as a member of the Executive Board. In February 1999, Zdeněk was appointed Vice-Governor of the Czech National Bank and in December 2000, became Governor, serving in this position until 2010. He was a partner at KPMG Czech Republic from 2011-2019, focusing on consulting in the financial sector. He is currently Chairman of the Supervisory Board of ČSOB. He is also a member of the scientific and statutory boards of several universities and a member of the Czech Economic Society, of which he was President from 1999-2001.
Deputy Chairman (British)
Elizabeth Cooke

After completing her teaching degree, Elizabeth taught at a preparatory school in Suffolk and then at Highgate Junior School in London. There, she had responsibility for the French and PSHE departments, as well as being Assistant Principal (Pastoral) for her final five years at the school. Following a move out of London, she was first a Governor for two years and then Chair of the Governing Body of a primary school in Essex. Her father, Nicholas Morris, was both a Governor of the ECP and also a Director of the English College Foundation and Elizabeth’s first official involvement with the College was also as a Director of the ECF, taking over as Chairman in 2017. She became a Governor of the ECP in 2011 and is now Deputy Chairman (UK) and a member of the Finance Committee. Her interests include travel, downhill skiing, reading and spending time in France.

Members

Barbara Day MBE PhD
Barbara came to Prague to study Czech theatre in the mid-1960s, after graduating in Drama from Manchester University. She then worked in theatres in London, Bromley, Stoke on Trent and Bristol, and in drama in education, before registering at Bristol University to write her PhD dissertation on the Czech theatre of the 1960s. While there, she organised the Bristol Czechfest (1985), with the aim of presenting to the British public such independent elements of the Czech arts as the Theatre on a String, Chorea Bohemica, Magdalena jetelová and Jiří Stivín. Through this she became involved in the world of the unofficial culture, and from 1985 worked for the Jan Hus Educational Foundation, lecturers, books and other materials for the underground seminars in Prague, Brno and Bratislava, and for the samizdat associated with them. (In 1988 the JHEF was described by the secret police as “one of the most dangerous organisations of an ideologically subversive nature operating from the territory of Great Britain against the CSSR”.) After 1989 Barbara moved to the Czech Republic to help establish the NGO sector, and since then has been teaching at SIT, CERGE-UPCES and DAMU, translating for Prague Castle, Charles University, Czech Academy of Sciences, National Gallery, Museum of Czech Literature, and writing – alongside academic papers and articles her published work includes Czech Plays (1992), The Velvet Philosophers (1999) and Trial by Theatre: Reports on Czech Drama (forthcoming from the Karolinum Press). She was awarded the MBE in 2002 and the Commemorative Medal of President Václav Havel in 1998.

Simon Eliot
Simon was Headmaster of Sherborne School from 2000 to 2010. He is a former Chairman of HMC South West and Housemaster at Winchester College. He is currently a Senior Advisor on Headship appointments for RSAcademics.

Petr Fiman FRM
Petr Fiman is a 2004 ECP graduate and the first alumnus to become a member of the Board of Governors, which he joined in February 2016. Up until recently, he was also a member of the Board of Directors of the English College Foundation. He has a BSc in Economics and an MSc in Finance from the London School of Economics. He joined Deutsche Bank in London on a graduate scheme in Credit Risk Management in 2007. In 2010 he moved to Bank of America Merrill Lynch, where most recently he has been a Director in Global Markets Risk Management, covering hedge funds. In his spare time, Petr likes outdoor sports: tennis, golf, running, skiing and sailing. He is an RYA qualified Day Skipper for yachts and has 100+ hours of experience on the Bosun dinghy, battling vicious wind gusts in the London Docklands.

Jan Grozdanovič LLB
Solicitor admitted to practice in the Czech Republic and England based in Prague. Chairman of British Czech and Slovak Law Association and former member of the Board of the British Chamber of Commerce.
Denis Keefe CMG
Recently retired as British Ambassador to Serbia, Denis joined HM Diplomatic Service in 1982 after grammar school in Essex, an MA in Classics from Cambridge and post-graduate research in Hellenistic Poetry at Oxford. His first posting was to Prague during the Cold War, where he managed the Embassy’s contacts with dissidents including Václav Havel. He has served in Nairobi, Prague (as Deputy Head of Mission during the Czech Republic’s preparations to join NATO and the EU), Tbilisi (as Ambassador) and Moscow (as Minister).
Denis has worked in London on the EU Single Market, German Unification and relations with China, Japan, India and other countries of the Far East and the Subcontinent. At the Cabinet Office in 2002-3 he led the team drawing up the UK’s first Counter Terrorism Strategy.
He was a Governor of the ECP from 1998-2002, and is Chairman of the Honorary Patrons Committee of Belhos匹ce, the campaign to establish the first Hospice in Serbia. He has six children (four of whom attended primary school in Prague), and speaks Czech.

PhDr. Miroslava Kopicová
Former Czech Minister of Education, Youth and Sports, who has led various EU collaborative programmes for employment, education and social policy and the first Director of the National Education Fund (NVF). She is a member of the managing bodies of VŠE and VŠFS universities, serves on the OECD LEED Committee and is an external examiner for the MBA at Sheffield Hallam University in the UK.

Viktor Kotlán
Studied in the Czech Republic, USA and Holland. Professionally, he is responsible for balance sheet management at the largest Czech retail bank, Česká spořitelna. Prior to his current assignment, he held several management positions in ČS and acted as the bank’s Chief Economist. He began his career at the Czech National Bank where he headed the Monetary Policy and Strategy department. Viktor holds a PhD in Economics and is a board member of the Czech Economic Society. Viktor is the proud father of two great children and a lover of cycling and cross-country skiing.

Ing. Jan Kovařovic CSc.
Formerly with the Ministry of Education, PHARE; currently working at the Education Policy Centre at Charles University.

JUDr. Karel Kühnl
Consul General of the Czech Republic in St Petersburg, Russia. Former Minister of Defence and MP in the Czech Republic. Former Czech Ambassador to the UK and to Croatia.

Margaret Rudland
Margaret was the Head of Godolphin and Latymer School from 1986 until December 2008. She also taught Mathematics at Godolphin and Latymer between 1967 and 1970 before working as a VSO in Nigeria. At St Paul’s Girls’ School, from 1972 to 1983, she became Head of Mathematics and Second Mistress, moving to Norwich High School as Deputy Head. In 1996 she was President of the Girls’ Schools Association. She has served on the General Teaching Council of England and the Boards of UCAS, The English Speaking Union, AGBIS and the Council of University College London. Margaret is currently a Governor of several schools in the UK. She enjoys cinema, opera and travel.

Katie Schoultz
International lawyer, real estate specialist, sustainability champion, strategy fanatic and women’s advocate, living and working in the Czech Republic since 2001.
Originally from the UK, Katie has lived and worked in Prague as a lawyer since 2001. Before moving to the Czech Republic, Katie graduated from Oxford University with a BA in Jurisprudence, trained as a lawyer at Gouldens (now Jones Day) in London (qualifying as an English Solicitor) then moved for 2 years to New York, working for Fried Frank (qualifying as a New York State Bar Attorney). After a short stint at the Office of the High Commissioner for Human Rights at the United Nations in Manhattan, as an administrative volunteer and speech writer, she moved to Prague where she lives with her two children.

She has been General legal counsel for P3 Logistic Parks since January 2015, adding the role of Sustainability Officer in 2017, responsible for shaping and implementing P3’s sustainability strategy and culture.

Co-opted member of the Education Committee - Mgr. Johana Heřmánková
Teacher of History and Theory of Literature at Konzervatoř a vyšší odborná škola Jaroslava Ježka and Research and Educational Programmes Manager (literature) at the Institut pro studium literatúry ops. Formerly PhD Admissions and Development Coordinator and Founder and Manager of Projects in Applied Economics for Talented Students at CERGE-EI (Centre for Economic Research and Graduate Studies); teacher of Philosophy at the Lauderovy školy v Praze.

End of term: Friday 26 March

SUMMER 2021

Start of term: Monday 12 April
Student holiday/Staff training: Thursday 3 June
Headmaster’s holiday/Ředitelské volno: Friday 4 June
End of term and school reports: Wednesday 30 June

Public holidays: 28 October, 17 November, 24-26 December, 1 January, 5 April (Easter Monday), 1 May, 8 May, 5-6 July

From 1 September 2020 to 31 August 2021, the school will be formally closed on the following inclusive dates:
- 21 December to 1 January
- 1 to 2 April
- 26 July to 6 August
- as well as the usual Czech public holidays
Daily Routine

Extra-curricular activities take place during lunch breaks, after school or at other times by arrangement.

The College is officially open between 7.30am and 4.30pm Monday to Friday during term times. We cannot take responsibility for students on or around the premises before or after these times. Students should not be in the school building before 7.30am and after 4.30pm unless they have made a specific arrangement with a teacher.
Academic Programme

The College offers a single curricular programme for all students in the first four years of study. We are in the middle of a programme change in which the current Year 3 & 4 students are working on a mixture of IGCSE, GCSE and other appropriate language courses, although we strongly recommend they only take the “Core” (English, Mathematics, and Modern Foreign Languages exams externally). Year 1 & 2 students will go on to study our own bespoke Pre-IB programme when they get to Years 3 and 4. All subjects are taught in English, apart from Czech and Modern Languages, which are taught in the target language. In Years 5 and 6 all students study for the International Baccalaureate Diploma. In addition, we also prepare those on the IB & Maturita Programme for the Czech Maturita, which is taught alongside the IB Diploma. The IB Diploma allows students who wish to take Maturita to be exempt from all other Maturita examinations except those in Czech Language and Literature.

It is an important principle of our academic programmes that students are rewarded for positive achievement – what they know, understand and can do – rather than being penalised for an accumulation of errors. As well as testing whether students can recall information and present it in an orderly manner, the curriculum encourages:

- The development of oral and practical skills
- An investigative and creative approach
- The use of initiative to solve problems
- The application of skills, knowledge and understanding
- Digital literacy and the effective use of ICT
Academic Programme

Lower School (Years 1 - 2, students aged 13 - 15)

UK & Czech Equivalent Years 8 & 9

The aim of Year 1 is to allow students to make rapid progress in English and also to become acquainted with a practical and reflective approach to learning. Students follow a broad curriculum of English, Czech, Mathematics, General Science (Physics, Chemistry and Biology), History, Geography, Computer Science, French, German or Spanish, Art, Music, Drama, Physical Education (PE) and Personal, Social and Moral Education (PSME). A large number of lessons are devoted to English Language preparation. Students can study Czech either as a first or second language. In Year 2 students continue the broad curriculum of Year 1 and prepare for the increasing demands of Years 3 to 6. In both Years 1 and 2 there is a high level of embedded Information and Communication Technology (ICT) content, and it is expected that all pupils are able to bring a laptop into school when requested.

Middle School (Years 3 - 4, students aged 15 - 17)

UK Equivalent Years 10 & 11; 1st and 2nd year of grammar schools

All current Year 3 and 4 students will follow a two-year course, at the end of which they will sit internal or external examinations in a wide range of subjects. These are academic courses and involve both factual learning and the development of the skills needed to lead happy and successful lives beyond school. They form an excellent and rigorous preparation for the IB Diploma programme.

The programme in Years 3 and 4 covers both Czech and international requirements. The study in most subjects incorporates the IGCSE / GCSE syllabus with additional content to meet Czech requirements where necessary. However, in most languages, students will be working towards qualifications that are part of the Common European Framework (CEF) and are recognised by universities and employers across the world. Drama is examined by the London Academy of Music and Dramatic Arts (LAMDA), with an emphasis on performance. Towards the end of these courses students will choose between the “Core” and “All External” examination options, after receiving advice and recommendations from their subject teachers, tutors, and senior academic and pastoral staff.

This programme provides a good foundation for further study, a broad knowledge base and learning skills that provide excellent preparation for future life.

All students are required to study the following subjects:
- English Language & Literature; Czech; one of either French, German or Spanish; History and Geography; Biology, Chemistry and Physics; Mathematics; Physical Education*; PSME*.

Students will then choose to take one of the following subjects:
- Art, Theatre, Computer Science, Business Studies or an extra Language qualification (usually Spanish or Russian).

Students who do not choose to take either Art or Drama must also take one extra lesson of Cultural Studies.
IGCSE / GCSE written examinations take place in May and June of Year 4. Common European Framework language examinations occur from March of Year 4 onwards, on dates set by the qualification provider. Coursework deadlines and practical examinations occur before the main exam period. The LAMDA exams usually take place in the Autumn of Year 4, on a date agreed with the provider. Year 4 internal examinations will take place in June. Year 4 students will remain in school until their internal exams. If they have an external examination during this time they are excused from school on the exam day and the day before to help them prepare.

If a student opts to take all their Year 4 exams externally these results will be used by UK universities when deciding whether or not to offer a place for undergraduate study. The results can also be used to support applications in other countries. If a student opts to take the “Core” this is not a disadvantage; universities may ask for transcripts of school reports instead, where the internal exam grade is reflected in the Attainment grade awarded.

The curriculum in Years 3 and 4 is demanding and will certainly stretch students academically. They will need to work hard throughout the two years, avoid being absent and keep up-to-date with their work. In Year 3 there is a high level of embedded Information and Communication Technology (ICT) content, and it is expected that all pupils are able to bring a laptop into when requested.

*These subjects are continually assessed, with no final examination.
Upper School (Years 5 - 6, students aged 16 - 19)

UK & Equivalent Years 12 & 13, 3rd and 4th year of Czech grammar schools

Students follow a course of study, which leads to the IB Diploma qualification. The IB Programme is designed to ‘develop enquiring, knowledgeable and caring young people, who will help to create a better and more peaceful world through intercultural understanding and respect.’ Students can opt for a Maturita route, which requires the study of Czech Language and Literature as well as English and another Modern Foreign Language; it leads to qualifications in both the IB and Czech Maturita. Students currently may also opt for a non-Maturita route, which does not have such restrictions but leads to qualification only in the IB Diploma. For students whose native language is not Czech, English or Chinese, we can offer the possibility of studying the native language as ‘self-taught’; this can be only taken at Standard Level and requires independent work on the part of the student. The ECP will assist with coordinating and supervising the student’s work. If you are interested in this possibility, please contact the IB Coordinator.

The International Baccalaureate (IB) Diploma Programme is a prestigious, demanding two-year programme with end-of-course examinations designed for highly motivated students. We are following IBO’s General Regulations for the IB Diploma Programme. The document is also available in the School Policies section on ECP the website.

The programme was born of efforts to establish a common curriculum and university entry credential for students moving from one country to another. International educators were motivated by practical considerations but also by an idealistic vision. They believed that students should share an academic experience that would emphasise critical thinking, intercultural understanding and exposure to a variety of points of view.

To be eligible for the award of the IB Diploma all candidates must:

- Study six subjects, one subject from each of the below mentioned groups
- Study three of these six subjects at Higher Level and three at Standard Level
- Submit an Extended Essay of up to 4,000 words in one of the subjects of the IB curriculum
- Complete the Theory of Knowledge course
- Complete the Creativity-Action-Service programme

**Group 1: Language A (native language):** The IB & Maturita Programme students study Czech. For other students the Language A is English or their own mother tongue (for which the College supports students doing the SL self-taught route). The course is literature-based and includes selections from world literature.
**Group 2: Language B (second or foreign language):** English B, French B, German B or Spanish B. We sometimes also offer Russian B (subject to demand and teacher availability) and an *ab initio* language for pupils who have not studied a language before, or whose current level of ability is not high enough to access the Language B curriculum. The courses in Language B are practical and language-based. Alternatively, students may study a second Language A.

**Group 3: Individuals and Societies:** Economics, Geography, History, Environmental Systems, Global Politics, Philosophy or Psychology.

**Group 4: Experimental Sciences:** Biology, Chemistry, Environmental Systems, Physics or Computer Science.

**Group 5: Mathematics:** Mathematics Analysis HL and SL, Mathematics Applications SL.

**Group 6: Arts:** Theatre or Visual Arts or a second subject from groups 1 to 4.

Please note that not all courses run every year. In particular if fewer than 4 students choose a course then the College may not run it that year.

**The Extended Essay:** This is a 4,000 word essay. Each student has the opportunity to investigate a topic of special interest. The essay requirements acquaint students with the kind of independent research and writing skills expected by universities. It should be written in one of the 6 IB subjects being studied by a student.

**Theory of Knowledge (ToK):** The course researches the issue ‘How we learn’, challenging students to question the basis of knowledge, to be aware of subjective and ideological biases and to develop the ability to analyse evidence that is expressed in rational argument. It aims to develop intellectual honesty in making knowledge claims.

**Creativity-Action-Service (CAS):** The IB Programme’s goal is to educate the whole person and foster responsible, compassionate citizens. The CAS component encourages students to share their energy, enthusiasm and special talents with others. Students may, for example, participate in theatre or musical productions, sporting activities, community service and charity activities. Students should, through these activities, develop greater awareness of themselves, concern for others, and the ability to work cooperatively with other people.

The IB Programme has earned a reputation for rigorous assessment. The grading system is criterion-referenced, which means that each student’s performance is measured against well-defined levels of achievement. IB points (grades) range from 1 point (minimum) to 7 points (maximum) at both Standard and Higher Level. The award of the Diploma requires at least 24 points and the successful completion of the Theory of Knowledge course, the Extended Essay and CAS. Our results are consistently above the IB World Average.

The IB Diploma gives access to universities worldwide. The English College is unusual in Prague in that we also prepare students for the Czech State Maturita examination alongside the IB Diploma; this allows those students who take this option the choice of universities in the Czech Republic as well as worldwide. Increasingly we are seeing our students study in a broader range of locations and our key priority is to enable our students to compete successfully for places at the top universities in the world.
The aim of all IB programmes is to develop internationally-minded people who, recognising their common humanity and shared guardianship of the planet, help to create a better and more peaceful world. IB learners strive to be:

**Inquirers**
They develop their natural curiosity. They acquire skills necessary to conduct inquiry and research and show independence in learning. They actively enjoy learning and this love of learning will be sustained throughout their lives.

**Knowledgeable**
They explore concepts, ideas and issues that have local and global significance. In so doing, they acquire in-depth knowledge and develop understanding across a broad and balanced range of disciplines.

**Thinkers**
They exercise initiative in applying thinking skills critically and creatively to recognise and approach complex problems, and make reasoned, ethical decisions.

**Communicators**
They understand and express ideas and information confidently and creatively in more than one language and in a variety of modes of communication. They work effectively and willingly in collaboration with others.

**Principled**
They act with integrity and honesty, with a strong sense of fairness, justice and respect for the dignity of the individual, groups and communities. They take responsibility for their own actions and the consequences that accompany them.

**Open-minded**
They understand and appreciate their own cultures and personal histories, and are open to the perspectives, values and traditions of other individuals and communities. They are accustomed to seeking and evaluating a range of points of view, and are willing to grow from the experience.

**Caring**
They show empathy, compassion and respect towards the needs and feelings of others. They have a personal commitment to service, and act to make a positive difference to the lives of others and to the environment.

**Risk-takers**
They approach unfamiliar situations and uncertainty with courage and forethought, and have the independence of spirit to explore new roles, ideas and strategies. They are brave and articulate in defending their beliefs.

**Balanced**
They understand the importance of intellectual, physical and emotional balance to achieve personal well-being for themselves and others.

**Reflective**
They give thoughtful consideration to their own learning and experience. They are able to assess and understand their strengths and limitations in order to support their learning and personal development.
Czech Maturita

Students at the English College may study for the Maturita as part of their IB studies; the qualification is awarded if a student a) passes the IB Diploma, b) achieves a passing grade in all their subjects at the end of Year 6 and c) passes the examinations in Czech Language and Literature set by CERMAT.

There are some restrictions on subject choice for IB students, although there are arrangements the school can make to meet most choices. Those taking the Maturita should study Czech at Higher or Standard Level for IB.

Maturita students who achieve the B1 qualification in French, German or Spanish before Year 5 do not need to take a third language (in addition to Czech and English) in Years 5 and 6 unless it is one of their IB choices. All other students must either choose the third language as an IB option, or attend non-IB language classes until they achieve the B1 qualification.

The external examinations set by CERMAT are currently taken by ECP students in April and May of Year 5 (the written parts) and May of Year 6 (the oral part).

The Provision of English

English lessons in all years are tailored to fit the needs of our students’ wide range of prior learning in English: both fluent first language speakers and those who started learning English later in life are catered for. In addition, all students are trained to develop their skills in the appreciation and analysis of literary and non-literary texts. As we recognise that many of our students are not native speakers and have ambitions to study and work in the English-speaking world, their courses specifically target English language acquisition needs and development from Year 1. In addition, we aim to identify students who need additional English language support. The Head of English as well as the Head of Learning Support are always involved in this process. All of our courses, whether for first or second language learners, ensure that students study language structures, develop literacy skills and can analyse and enjoy literature at an appropriate level.
International Baccalaureate Results in the last 6 years

All ECP students are entered for the full IB Diploma, consisting of six subjects, the Extended Essay, Theory of Knowledge, and Creativity, Activity & Service.

Teaching and Learning Strategy

Teachers at the English College create opportunities for students to not only acquire content knowledge but also to rigorously evaluate it and explore context and multiple perspectives. Learning is an engaging, collaborative process that takes place inside and outside the classroom and encourages risk-taking and critical thinking. However, students aren’t our only learners; ECP staff meet weekly in small groups to discuss best practice and investigate evidence-based ways of teaching, supporting and assessing students. We have a rich culture of educational research and reflection, outlined in a long-term Teaching and Learning Strategy that aims to celebrate, support and enhance the pedagogy at ECP.

Our strategy encompasses the following areas of focus:

- Assessment
- Feedback
- Expectations of Achievement
- Homework
- International Baccalaureate Approaches to Teaching and Learning
- Literacy
- Digital Information Literacy

The mechanisms we use in order to advance the focus areas of our Teaching and Learning Strategy include:

- Research-driven Teacher Learning Groups (TLGs)
- Peer training and collaboration
- Student engagement
- Parental engagement
- Shared schemes of work
- Self-reflection

In terms of IB-specific teaching and learning, we have developed the Annex section of our campus into an International Baccalaureate Centre where students can find support for their academic courses and preparation for university and careers. Predominantly IB classes take place in the Centre and our experienced Upper School Team’s office is also located there.

Academic Support

All students at ECP take brief, online skills assessments provided by the Cambridge Assessment. Our Tutors use this information, alongside entrance exam results, previous academic performance, guidance from subject teachers and their own professional judgement, to form a broad minimum expectation of their tutees’ academic progress. We track attainment against this baseline, intervening where students appear to be performing below expectations. This is a holistic system, considering both academic and pastoral factors, and placing the students’ individual needs at the heart of the process as we seek to help each student fulfil their academic potential.
The Learning Support Department

The Learning Support Department is designed to work not only with students with Specific Learning Difficulties but also offers general learning support to all students at the English College. The Head of Learning Support works closely with all staff and parents to identify and assist such students. Support can be individual, group or in-class, either on a regular or occasional basis. The aim of the Learning Department is to create a level playing field for all students allowing them to achieve their full potential regardless of their difficulties.

Pastoral Care

The emphasis on pastoral care is fundamental to the life of the College. We aim to provide a friendly environment, in which students are cared for as individuals in an atmosphere of mutual respect and understanding between teachers and students. For students to succeed academically and to develop their full potential, it is important that they develop strong self-esteem and are encouraged to set and meet their own high standards of achievement and behaviour.

Students are divided into four Houses – Aqua, Ventus, Terra and Ignis. Each of them is a small community and together they create the whole school community.

Every student has a personal tutor, who is a member of a team of tutors under the guidance of a Senior Tutor, who reports directly to the Deputy Head (Pastoral). The tutor’s role is to support each student's personal development, encouraging them to make the best use of their time and talents, to examine moral issues, to have confidence in their own ideas and opinions, to learn to work effectively with others, and to develop the maturity and judgement to overcome personal problems and manage difficult situations. The Headmaster has an open-door policy and takes a personal interest in every student.

Aims of the Pastoral Programme:

1. To deliver individual care and support in an atmosphere of high attendance, mutual understanding and respect.
2. To create an environment where freedom is always linked with the sense of responsibility, an environment where creativity is the bridge between different cultures, an environment where older students feel responsibility for younger students, a caring environment that ensures that problems can be identified at an early stage.
3. To ensure that high academic and attendance standards are met and students achieve to their full potential.
4. To provide a Tutor Time programme based on a range of foci that aims to ensure that all cultures and nationalities are understood and respected equally in the College community.
5. To listen and learn from students, both inside and outside the classroom.
6. To provide tactful, fair, kind, supportive and consistent pastoral care in order to encourage and help the student to enjoy and make use of all his/her virtues and talents.
7. To help young people choose the right way to develop their characters, make ethical decisions and find their place in society.
8. To make sure that students are aware of people in need in society.
9. To help students manage difficult life situations and overcome difficult personal problems.
10. To work closely with parents and families, help them to deal with any problems their child faces and, if necessary, liaise between parents and students and teachers and students.
The :more Programme

This programme is a variety of activities promoting overall students’ development and, developing broader understanding. This reinforces life-long education and supports the community. The :more programme connects pastoral care and the academic programme and it also embeds the IB Learner Profile in all school activities. It includes Extra-Curricular Activities and Societies, Caritas, Trips, Prague Programme, House Competitions, DofE, Theme of the Year, Lectures Programme, Debates, Cultural Olympiad, Festival of the Arts and :more...

The value of ‘experience’ as a learning tool has been more and more acknowledged in many educational documents. The :more programme puts experience at the centre of learning by providing challenges and opportunities. It encourages students to explore more, to create more, to help more, to live more in the present, simply to experience more in life. Students then learn from their own mistakes, from specific true life situations. Students are also naturally using their academic knowledge in real life situations and meanwhile learn more about specific areas through the activities rather than just in the classroom.

We believe that every child has a variety of talents and the obligation of the school is to help with discovering and developing them. Success in any area helps a young person to establish self-confidence and self-esteem. Nowadays universities increasingly pay attention to the extra-curricular activities of the applicants.
The College is therefore not merely an academic factory but it must pay attention to the development of all the talents and skills of our students: physical, emotional, creative and social. It is no surprise then that, tutors, in their holistic comments at the end of the school year, write about what extent a student has developed as a whole person.

The :more programme also prepares students for the IB Programme's CAS element - students who want to get the IB Diploma must prove that they are active, that they help people in need and are capable of creative thinking and work. Through a special pre-CAS programme, students in Years 1-4 develop habits that are required in the IB Programme.

**Student Leadership**
Student leadership takes many forms, from organising ECAs to taking on specific responsibilities in their house (sporting/cultural etc) but perhaps one of the most important leadership activities is the Student Council where students learn how to become active partners with the school management and how to organise different events and projects representing the student body of the school. Very popular is the election of the new President of the Student Council each September - it is important, not only for the candidates, who have to prepare presentations and campaigns, but also for other students who learn how to choose the best candidate.

**Mentoring Programme**
We have a mentoring programme for students in Year 1. Selected students from Year 6 take care of small groups of Year 1 students and meet with them each month to support them in the first stage of their studies at ECP. Year 1 students then also join Year 6 students at their Graduation Ball where they will be formally welcomed into the ECP community.

**Experience Books and CAS records**
Activities such as those above, and outside school activities, are recorded in the student’s Experience Book (students in Years 1-4) or in the CAS records on ManageBac (IB students). Students write their reflections - a summary of what they have learnt. Although writing reflections is challenging, students start to realise that through meaningful reflection the experience becomes stronger and they can learn more from it. The Experience Books are also a nice memory book that students will value later in life. Tutors check Experience Books and CAS records regularly and help students to reflect sensibly and encourage them to ask good questions about everything they go through in their lives. Students can also use other ways to record their reflections, such as blogs or videos.
The Lord Holme Library is located on the ground floor of the College. The Library is composed of the Study Room, the Manga/Anime Corner, the Library’s Main Room and a Textbook Store Room. It contains books, graphic novels, text books, magazines and films in English, Czech, German, French, Spanish and Russian. The Library has an Internet-based catalogue of all our resources including approximately 200 e-books which students are able to access from home.

In the Library you will find:
- Almost 12,000 books
- About 900 CDs, DVDs and BDs (Blu-ray discs)
- 19 print magazines and newspapers
- Ten laptops and twenty three iPads available for students to borrow on short term loan
- Eight computers with WiFi connection for students to use in the Library
- A colour photocopier with printer and scanner

In addition, our co-operative programme with the Czech National Technical University affords our students and staff access to their 73 e-resources databases as well as their entire open-access print collections and state-of-the-art facilities.

Hours of Operation:
Monday to Friday: 7.30 to 16.30
University Destinations 2019

When they leave the English College, most students expect to go on to college or university in the UK, the Czech Republic, the USA or elsewhere in the world. Experienced teachers advise students on their choice of university and courses of study and help them with their applications. Students are encouraged to research the opportunities available to them and to gain work experience that will assist them with their applications. Students are taught to evaluate their personal strengths and match them to career and study aspirations. They construct personal curriculum vitae and make a provisional career and study/training plan, which will form the basis for future university applications.

Every year our students receive offers from the most prestigious universities in the world, from Oxford and Cambridge to the US Ivy League Universities such as the University of Pennsylvania. Ten ECP students have received offers from Oxford and Cambridge universities in the past five years, and most students who go onto the UK study at the UK Russell Group universities, such as LSE, York, Manchester, Bristol, UCL and Imperial College. In addition, many of our students opt for diverse locations such as Hong Kong, South Korea, the Netherlands, France, Sweden, Switzerland or Austria.

Of our 77 students who left school in the summer of 2019, 53 were awarded places at their first choice university including University of Pennsylvania, Kings College London, University College London, Warwick, Amsterdham and Charles University amongst others. A further fourteen will be attending other prestigious universities throughout the world, with the remainder taking a gap year.

In order to help our students decide which university to apply to, we run a number of university and careers events throughout the year. This includes hosting universities from all over the world as well as holding larger events such as a Dutch University fair. We also bring in speakers from a variety of different careers, often ECP alumni, to give students a taste of what different sorts of careers are available to them. We are a community that learns from each other and many of our recent students often come back to offer additional advice to our current students.

**Work Experience**

We run a competitive work experience scheme, where each year a number of our students spend time in a working environment in Prague or in London. Previous students have experienced the world of work in places as diverse as the House of Commons, Chatham House, the Orange Tree Theatre, a GP’s surgery, and legal and investment firms in London, to blue chip companies such as Deloitte and local NGOs in Prague. All this puts our students in the best possible position to achieve a fulfilling career in the future.

Our London Work Experience Programme is now in its 13th year. It is run by the English College Foundation, the charity that set up and still supports the English College in Prague. It gives Year 6 students the opportunity to spend October half-term in London, on a placement in a field in which they are considering making a career. We are very grateful to our Chairman of Governors, Ann Lewis, who coordinates the programme and to all our supporters in the UK who provide the placements and accommodation.
All ECP students automatically become members of the ECP Network (ECPN) when they leave school. Our graduates regularly visit the College to advise current students on universities and careers, sharing their experience and offering practical advice, helping to guide the next generation as they enter their adult lives. Here, some of them talk about what the English College means to them.

**Tomáš Pospíšil (IB 1999)**

If I think about how the English College has helped me, I would say primarily with my English skills and then that teaching me the ability to think critically and to consider the arguments both for and against have been equally important for my work. I learned the meaning of the words biased, unbiased and prejudice. I hardly understood the idea behind them, even in Czech, because the concept of biased news, biased analysis or an unbiased opinion was very new to many in Czech society in the early 1990s. Neither shall I forget that it provided a positive, multicultural environment and so I was keen to pursue an international career and I have had no problems adapting in any of the countries I have lived in so far.

**Filip Kielar (IB 1999)**

My name is Filip Kielar and I am a 1999 ECP graduate. I am currently working as a lecturer and researcher at Naresuan University in Thailand. Since getting my IB Diploma at the ECP, I have studied and worked in the Czech Republic, Netherlands, UK, Italy, USA, and Thailand. I am certain that studying at the ECP was instrumental in preparing me for this global lifestyle, both by providing me with invaluable language skills and also an open minded approach to the world. I especially appreciated the possibility of selecting subjects for IB according to my interests - Natural Sciences. In fact, it was through fulfilling one of the IB criteria, namely the Extended Essay, that I was propelled towards my future career in Chemistry. The ECP and my Chemistry teacher at the time arranged for me to undertake research at the Institute of Chemical Technology in Prague, where I would later study. In addition, my interest in the sciences was further cemented when I was given the opportunity to represent the ECP at the London International Youth Science Forum in July 1998.

**Jan Barta (IB 2004)**

I am currently an entrepreneur and investor mostly focused on the internet sector with projects such as ePojisteni.cz, the largest online car insurance comparison website in the Czech Republic, and various others such as Tarifomat.cz, SlevyDnes.cz, Favi.cz and JenPrace.cz. I graduated from the English College in Prague in 2004. The ECP was an absolutely fantastic experience and a jumping block for my future career. It helped me develop vital skills I prize very highly (even more than the academic experience), such as staying constantly curious, the ability to reason and solve problems, and being able to give something back.
Kateřina Kantová (IB 1999)

My name is Kateřina Kantová, a former student at the ECP and today, a psychologist. Without doubt, I would repeat my ECP studies over again; the College was a very inspiring and open-minded environment, with a variety of perspectives and possibilities for study. I chose to be a psychologist because I loved my IB Psychology course and teacher at the ECP and today, I still have a passion for my job. As a psychologist, I love working with people, have written and published two books, have my own office, work also as a sports psychologist and hold various workshops. I have many English speaking clients and without an English education I know I would not be able to fulfill the language needs required to carry out therapy in English, which has opened up many new possibilities for me.

Jakub Renner (IB 2003)

The English College taught me to view the world from a broader perspective. Thanks to the English College, English became my second native language, which was instrumental for my subsequent university studies and my career. For over eight years I've worked as a conference interpreter for the European Parliament.

Petr Fiman (IB 2004)

An ECP education was the most formative experience of my life. Over my six years at the school I met so many great people, became fluent in English and German and passed the IB with 44 points, unlocking access to some of the most prestigious universities in the world. To this day, some 15 years after having left the school, all of my closest friends are from the ECP circle. Since leaving the ECP in 2004, I have been living in London. I started my professional career at Deutsche Bank in 2007 and later moved to Bank of America Merrill Lynch in 2010. I work in risk management, covering hedge funds. I have two degrees from the London School of Economics, both with Distinction (one in Economics, one in Finance). Over the years, I have grown special ties to the ECP from the alumni angle too. I have served as one of the Directors of the English College Foundation and I joined the ECP Board of Governors in February 2016. Wanting to ‘give back’ to the ECP has always been on my mind and I know there are many others among the ECP alumni who want to do the same or are already doing so.

Jan Brunner (IB 1999)

When I attended this year’s annual English College Foundation Garden Party at the residence of the Czech Ambassador in London, I realised once again what the English College in Prague (ECP) means to me. There is a special bond between the students of the ECP that can not be explained with words. Whenever I meet someone who has his or her own history with the English College in Prague, there is immediately a mutual sympathy and understanding. I am not exaggerating when I say that the years at the ECP were the best of my life. I started my ECP journey as a shy student sitting at the back of the class and currently, I am serving my country as the Deputy Ambassador of the Czech Republic in the United Kingdom. The English College in Prague gave me confidence in myself and taught me how to defend my arguments. I will always be grateful to the English College in Prague not only for my professional success, but especially for the life-long friendships we made there.
Admissions Procedure for the Academic Year 2020/2021

Open Days: 14 November 2019, 15 January 2020 and 11 February 2020 starting at 1.00pm at the College

State Entrance Examinations (only to Y1) (Czech and Mathematics): 16 and 17 April 2020

Internal Entrance Examinations to Y1 (English and NVRT) and Y3 (Czech, Mathematics, English and NVRT): 20 April 2020
Internal Entrance Examinations to Y2, Y4, Y5 (Czech, Mathematics, English and NVRT): 28 April 2020
Year 1 second round: 4 May 2020

Candidates for Y1 need to sit State Entrance Exams in Czech and Maths (provided by CERMAT) and College exams in English and a diagnostic Non-Verbal Reasoning test. Candidates for all other years need to sit College entrance examinations in English, Mathematics and Czech language (those who speak Czech) and a diagnostic Non-Verbal Reasoning test, at the College on the date specified. Interviews in English with the Headmaster are required before sitting the entrance exams. Exams will be set at the level appropriate for the year of entry. Samples of internal test papers as well as the exam requirements are available on the ECP website.

Entry is possible at:
Year 1 (8. tř. ZŠ, Yr 8 UK) - A full 6-year bilingual gymnázium programme.
Year 2 (9. tř. ZŠ, Yr 9 UK)
Year 3 (1.ročník gymnázií, Yr 10 UK) - Students will follow a two-year course, at the end of which they will sit internal or external examinations in a wide range of subjects.
Year 4 (2. ročník gymnázií, Yr 11 UK) - Entry in Year 4 for students is relatively rare and is for students who would otherwise plan to join us in Year 5. Although they will arrive mid-way through a two-year programme, it will give them time to settle into the school (both academically and pastorally) before starting the challenging IB Diploma Programme.
Year 5 (3. ročník gymnázií, Yr 12 UK) – The two-year IB Programme; a high level of academic English is required.

Expected number of successful candidates
The College is looking to admit up to 42 boys and girls of appropriate calibre into Year 1, of whom approximately 75% should be of Czech nationality.

Admissions criteria
Candidates need to present to the Headmaster that they are proficient and fluent enough in English to be able to understand lessons taught in English. Reports from candidates’ previous schools need to show that their academic achievement, behaviour and attendance are satisfactory or better. Candidates need to reach a sufficient standard of achievement in the entrance examination papers to satisfy the College’s academic requirements. Additionally, the Headmaster is looking for candidates whose outlook is broadly aligned with the school’s ethos. In practical terms, this means being both open and internationally minded, as well as being personally self-motivated and willing to engage with the school and the wider community.
English exam preparation course
Students who would like to sit the ECP Entrance exams but are perhaps feeling unsure about whether their English is strong enough to pass are offered a preparation course that will run once a week from January until April. It is expected that students choosing ECP and this course will all have a firm foundation in English, but may have experienced different approaches to English language teaching. Our aim is to consolidate their knowledge, revise English grammatical structures, practise reading & writing skills and build speaking confidence to make sure they have the appropriate skill set and confidence to pass our English entrance exam. The course will run on Thursdays after school (4.30-6pm). For registration please contact the Registrar, Ms Němečková.

Mathematics exam preparation course
The ECP Entrance exams reflect the demands of the UK National Curriculum for Mathematics and its belief that Mathematics is a creative and highly interconnected discipline. The Mathematics Faculty offers a preparation course that will run once a week from January until April. The course is designed to support those students who have not experienced the English style of teaching of Mathematics. It is expected that students will have strong arithmetic skills and a firm foundation in English. The twelve week course will cover each of the following five Mathematics strands (Number, Algebra, Geometry, Graphs, Data Handling) and include a detailed explanation of the concept, an opportunity to practise these skills, along with a number of short quizzes and one fuller practise exam. The course will run on Wednesdays after school (4.30-6pm). For registration please contact the Registrar, Ms Němečková.

Aptitude test
To help you make your final decision, the College provides an aptitude test before the actual entrance examination. The test will be held on 6 February 2020 from 8.30am and will consist of three short papers: English, Czech, Maths. This aptitude test is not an examination and is not obligatory, and no marks or grades will be published. It will, however, enable us to advise you on the suitability of your child for the College, in case you have any doubts about whether your child will succeed here. If you would like your child to sit the test, please let us know by 31 January 2020 at the latest. After the test, you may contact the Registrar, Ms Němečková, who will be able to give you information and advice about the entrance examinations. The invitation to the entrance exams and further details will be sent out in advance to all the registered students.

For applicants to Year 1
We would like to remind you that you have to fill in the official application form (SEVT) provided by your child’s primary school and hand it to us by 2 March 2020 at the latest.

Information for the official SEVT application form:
IZO:108 001 369
identifikátor školy: 600 006 140
Obor: dvojjazyčné gymnázium
KKOV: 79-43-K/61
Ryde School is set in beautiful grounds on the quintessentially English Isle of Wight. Ryde is a leading UK boarding school in the South of England and prepares students for IGCSE, the IBDP, IBCP and A levels.

Teachers are experienced and familiar with the needs of EAL students and preparing them for success in these external examinations. A further link between the schools is that their Headmaster, Mark Waldron, served as Headmaster at ECP from 2009 to 2013. Mark and other staff who have continued their careers at Ryde, after ECP, retain a real affection for their time in the Czech Republic and working with the students at the English College.

A Summer English Programme at Ryde will provide students with a tailored programme to prepare them for success in their studies at ECP. English departments in Prague and Ryde will liaise closely to ensure the specific needs of each pupil are met and skills that will be required to perform in external examination are developed.
The English College in Prague has as one of its aims, “to attract and retain those students best suited to the education we offer through selection, as far as possible, by academic ability rather than ability to pay.” The College achieves this through bursaries, scholarships and other awards. The College aims to spend up to 7.5% of fee income on various forms of fee reduction.

The application deadline for 2020/21 is 3 April 2020.

Bursaries

There are two types of bursary: social bursaries and hardship bursaries.

Criteria for Social Bursaries

Bursaries are offered at 3 levels - 10%, 30% or 50% - and are awarded depending on the assessment for family income as completed in the official application form by a date published on the school’s website each year. Assessments are made by the Registrar and Business Operations Manager, who then bring their recommendations to the Headmaster for approval.

A bursary is granted for one school year only and each year new applications must be submitted and are evaluated again based on the most recent attendance and effort grades and the latest family income statements.

Hardship Bursaries Criteria

If parents find themselves facing unanticipated economic difficulties during the course of the school year, they can apply to the Headmaster for financial support in meeting the continuing costs of their child’s education.
Scholarships

Criteria for Scholarships
Each scholarship is awarded on a slightly different basis as described below; however, a prerequisite for all scholarships (except the Academic Scholarships) is a demonstrable financial need in addition to specific criteria laid out below. The assessment of financial need is conducted through the submission of the same official application forms used for bursaries. Academic scholarships are awarded irrespective of financial circumstances and therefore no financial details are required.

Individual Scholarships Programmes

There are five scholarship programmes. Holders of the first four scholarships need to fulfill certain community engagement obligations and promotion of the Scholarship programme, which most notably includes helping with the annual fundraising concert for the Václav Havel Scholarship.

■ Václav Havel Scholarship
A few months before his death in 2011, Václav Havel gave his blessing to the creation of the ECP Václav Havel Scholarship, a student-led initiative enabling a member of the Roma community to study at the ECP on a fully-funded scholarship. The school endeavours to reach out as widely as possible into the community to attract suitable candidates. Such candidates need to pass through the normal entrance procedures but obviously account will be taken of their specific circumstances when making assessments about their suitability for ECP.

■ Prince of Wales Scholarship
The Prince of Wales Scholarship is awarded to a student who would not normally consider applying for a place at an independent school because of lack of funds. The ideal candidate will be an ambitious and talented individual of Czech descent.

How to apply
If you think your child would benefit from the sort of academic education offered by the English College in Prague. The requirements are:

- download our application form from the website and submit the completed form to our Registrar, Barbora Němečková
- submit a motivational letter from your child, of approximately 400-800 words, written in English, explaining why they would like to study at the English College in Prague
- pass the school’s entrance exams in English, Czech, Maths and non-verbal skills
- be interviewed in English by a selection panel consisting of the Headmaster and three independent, external members

The entrance exams and interviews will be held shortly after the deadline for applications (3 April 2020).
Jan Barta Scholarships
These scholarships are for the student’s entire duration at the school and are paid 50% directly by the College and 50% by Mr Barta. If some of the personal challenges and restrictions you currently face could be lessened or removed, could you then see yourself as a future changemaker in the field of business, science and technology, civic organisations or politics? You can’t afford to study at ECP, but you are bold enough to imagine yourself studying here? Do you believe our school could help you on your way to fulfilling your dreams or the dreams of others? Then apply for a Jan Barta Scholarship.

How to apply
In order to apply, a candidate must:
• submit an essay (400 to 800 words) about a project or an idea that they are passionate about (solution of a local or global problem, community project idea, a business idea etc.) accompanied with illustrations, pictures, videos or any other attachments if so desired
• submit a short covering letter (maximum one page) summarising information about the student and their motivations
• submit a letter of recommendation from a teacher or a community leader
• successfully pass the College’s entrance exams
• attend a first informal interview, in English, with the Headmaster
• attend a second scholarship interview with the JBS review panel, one of whom will visit the student’s family in their home environment
• submit an affidavit about total family income and official supporting documents

The entrance exams and interviews will be held shortly after the deadline for applications (3 April 2020).

Prague 9 Academic Scholarships
These scholarships are designed to help prospective students who are in state school education in Prague 9 to be able to come to ECP. The level of award is up to 50%, which will reflect academic potential and may take into account financial circumstances. The scholarships are usually for a duration of two years, although with sustained excellent academic performance they will usually be continued for a further two years. The Prague 9 Scholarship is awarded at the same time a place is offered at the school.

Academic Scholarships
These are currently offered to new students in the school. Generally, they are for one or two years and usually at a fee reduction rate of 25%.

Founders’ Academic Prizes
The Founders’ Academic Prizes are awarded each year. They are awarded to the three highest-achieving students in each year group on the basis of their performance throughout the previous academic year.
Talent Awards
A small amount of money is available to students who show exceptional talent in a certain area. This is not a scholarship but students who receive this award get modest help in developing their talent by subsidising experiences or facilitating access to resources. The number of awards made each year varies, but it is usually for three or four students in the school at any one time. In return, students are required to contribute significantly to the cultural life of the English College in Prague through school events, public occasions and by example. These awards are offered to existing students who show particular talent and as such there is no formal application process.

Sibling Discounts
Sibling discounts are automatic and consist of a 10% discount on the second and any subsequent siblings’ school fees.

Ongoing Eligibility and Combinations of fee reductions
All bursaries, scholarships, prizes, sibling awards and prizes at ECP are subject to pupils achieving an attendance rate of 90% or above and ATL grades of A & B, unless exceptional circumstances apply. They are not dependent on ongoing academic performance, only effort and attitude. Academic scholarships, bursaries and sibling discounts are additive but subject to a maximum discount of 50%.
By paying a refundable deposit of 40,000 CZK for the school fees, parents accept the financial and contractual terms of the ECP and confirm that they accept the place offered to their child. The deposit for school fees must be paid according to the deadline in the contract. If the payment is not made, the place is no longer reserved for their child and will be offered to another applicant. If the student does not take up his or her place, after being accepted, the deposit paid will not be returned. This deposit for the school fees will be deducted from the final term’s fees.

The parents further undertake to pay a refundable deposit for books of 10,000 CZK. This deposit for books will be refunded at the end of the child’s study at the College on condition that all liabilities towards the College are settled including returning all books and other borrowed equipment and materials.

The school fees are governed by the contract signed between the College and the parents of a student.

The school fees are payable in Czech crowns (CZK).

All school fees are subject to an annual review and may be changed unilaterally by the College at its own discretion because of inflation or for other reasons.

If a student leaves the College early, i.e. before the end of Year 6, the parents must give written notice, one full term in advance, to the Headmaster or alternatively, they must pay one term’s school fees in lieu of notice.

Parents may apply for a Social Bursary for the next academic year by 3 April of the current year. The form is available on the College’s website.
